APPROVAL OF MINUTES BOARD MEETING OF JUNE 2, 2008

A motion was made by Trustee Marinello, seconded by Trustee Schoonmaker, unanimously approved on a roll call vote to adopt the minutes of the meeting of June 2, 2008 as presented.

MANAGER'S REPORT

Restore NY

The Village hopes to participate and secure a grant known as Restore New York. It is expected the award will be capped at 2.5 million dollars, each project, for Main Street Improvements. It is expected to be announced late August or early September. Currently, two property owners have expressed great interest in participating. One property owner has deposited \$5,000 in escrow for design and grant writing services.

Minutes - Regular Village Board Meeting
6/16/08

The Mayor and I met with the County Manager and, as a result of that meeting, have secured the assistance of the County Grants Department in the preparation of the grant.

The Village's consulting engineering firm, Barton and Loguidice, together with the County Grants Department will be preparing the applications.

There will be a joint meeting of the Zoning Board of Appeals, Planning Board, and Village Board on June 26 to discuss the scope and impact of the projects.

Insurance

The proposal provides for insurance coverage for fiscal year 2008 2009 at all of the current levels of insurance now being carried with increased coverage for OCP, Failure to Supply, and Lease/Rental Equipment at a reduction in premium of \$19,000.00 from last year

OCP owner/contractors protective-names DOT as the insured for work permits by the Village on state roads.

Failure to Supply - provides insurance if water can't be supplied. The current policy has a limited version of this coverage. This policy provides full coverage.

Lease/Rented Equipment provides coverage if we damage equipment we lease. There is \$100,000 coverage per item.

Website

We are still negotiating the terms of the contract with the website provider. There is one item not yet agreed upon concerning liability. As soon as this item is resolved, the website should be up and running shortly. When the Board approved this contract in January, nothing was done by the previous manager to execute the contract. Upon my taking office I contacted the website provider and started to get the site information to him, only to find that we did not have a contract in place.

Property Owner's Meeting

There was a meeting with Mayor Jenkins, Trustee Hutchins and myself with owners and representatives of Fairground Estates, Horizon and Moon Manor apartment complexes, and representatives of Section 8 housing together with concerned citizens.

The meeting dealt with gang activity and criminal behavior and code violations which were attributed to residents or visitors at Moon Manor.

There will be ongoing dialogue to address the concerns and fears expressed at the meeting.

The police department will be stepping up patrols and its presence at Moon Manor, Horizons, and Fairground Estates.

Building Department

The building Department has instituted a new procedure to deal with property owners who fail to maintain their properties in accordance with code. Each day the Code Enforcement Officer will inspect properties and issue violations of the Property Maintenance Code. The violations will be mailed or served on the day issued.

One week later, the Code Enforcement Officer will reinspect the property and if it is not brought into compliance the Highway and/or Sanitation Department will clean the property and bill the owner. This cleanup charge will be in addition to whatever fines might be imposed by the court.

Labor Management Meeting

Last year, the Village desired to create a new position, Grounds Maintenance Worker (groundskeepers) in the sanitation department. A meeting was held with representatives of the Union and the concept was approved.

Last week on June 6th there was a labor management meeting, called by the Union, to address the Village's failure to formalize the position by adding an addendum to the collective bargaining agreement.

Minutes - Regular Village Board Meeting
6/16/08

The former Manager failed to provide the proper documentation to identify the position, job duties, pay scale, and work hours so that Management and the Union could ratify the agreement.

The Mayor and I met with the union representatives and were able to iron out the remaining issues and we now can finalize the agreement.

He noted that if the Village does do the cleanup or grass mowing the property owner will be billed for the time and machinery that the Highway Department uses, an additional \$150.00 administration fee and they will have to appear in Court and possible be fined.

Trustee Marinello reminded the residents that grass is not allowed to be more than 6" high according to the Village Code.

PUBLIC COMMENT - AGENDA ONLY

Broadway Sidewalk Restoration

Becky Whipple questioned why the Village will be paying for the sidewalk title searches when it is a NYSDOT project?

The Village Manager explained that last year the Village secured easements from all the Broadway property owners, however, after an audit by the Federal Government on another project done elsewhere they determined that easements weren't enough to allow the State to improve private property with a sidewalk, so the Village was advised that we had to secure ownership of the individual parcels. These parcels have to title searched and then the Village has to obtain ownership either by purchase, eminent domain or some other method. He indicated that the Village will have to pay for this.

Addendum Items

Tom Rue requested that when there is an addendum copies be made available to the public prior to the meeting to allow the public the opportunity to have public comment on the additional items.

The Village Clerk responded that when there is an addendum copies will be available to the public at the beginning of the meeting.

PUBLIC COMMENT

Heating Concerns

Trustee Schoonmaker was concerned that senior citizens would not have enough money to pay for fuel oil to heat their homes this winter since the projection is that it will cost \$5.00 a gallon for fuel oil. He felt that the Village should possibly contact the Berman Family who has set up a fund which could contribute to seniors in financial need to ensure that they do not freeze this winter.

Charlie Sabatino suggested that the Village contact Congressman Hinchey to find out if he can help in any way.

Recycling Update

Trustee Schoonmaker explained that he has been in touch with the Village of Liberty's Recycling coordinator Peter Parks to help Monticello initiate our recycling program to work as successfully as Liberty's, although they are still having trouble with compliance. He felt that beginning in September the Village must get vigilant in the enforcement of the recycling laws which will greatly reduce the Village's landfill tipping fees.

Conditions on Broadway

Becky Whipple was concerned with the Kaplan's store front that has brown paper peeling off the windows and the façade of the old Napoli's building that hasn't replaced the windows on the second and third floors.

The Village Manager responded that violations have been issued and it is returnable in court awaiting the judge putting it on her docket.

The Mayor indicated that he has spoken with the owner of the building to get them to fix up these buildings, as well as the Code Enforcement Officer issuing those tickets.

Minutes - Regular Village Board Meeting
6/16/08

27 North Street

Ray Lustig owner of 27 North Street indicated that the building was opened last week and thanked Thomas Mack for his help in getting this accomplished. He asked that the Village allow him to have tenants occupy the 3rd floor.

Trustee Schoonmaker advised him that the 3rd floor at this time cannot be occupied.

The Mayor explained that the Village's viewpoint is that the 3rd floor is unsafe and cannot be occupied.

Community Meeting

Caroline Massey reported that prior to this meeting a group of concerned citizens representing some of the apartment complexes and the Afro American Community met to discuss taking the responsibilities for some of the gang activities, the deterioration of some of the housing complexes and the problems with substance and alcohol abuse. At that meeting committees were formed to address these issue and they will continue to work with the Mayor and the entire Village Board.

Debra Mack indicated that the entire community will be asked to participate since it is a village wide problem.

EXECUTIVE SESSION

At 7:45 p.m., a motion was made by Trustee Marinello, seconded by Trustee Hutchins, unanimously approved on a roll call vote to move into Executive Session to discuss a personnel matters regarding particular individuals.

ADJOURNMENT

At 9:05 p.m., a motion was made by Trustee Marinello, seconded by Trustee Schoonmaker, unanimously approved on a roll call vote to move out of Executive Session and adjourn the Regular Village Board meeting.

EDITH SCHOP, Village Clerk
